initial max wt 45lbs, $500																							
expand to 75lbs, $200																							
expand to 120lbs, $400																							
expand to 165lbs, $400																							
Powerblock Elite	X	X	X	X		X	X	X		X	X	X		X	X	X		X	X	X			
initial max wt 50lbs, $400																							
20lb expanders $200 ea																							
expands up to 90lbs																							

Things to Consider:

The chart shows the weight increments available for each dumbbell. Use it to identify any gaps you may want to fill with a set of fixed dumbbells.

If you do not know which of these to purchase, I would recommend going to the site of each and reading the features.

When purchasing compare the manufacturer site against other sites such as Amazon as sometimes it can be cheaper than buying them from the manufacturer (crazy I know).

If you're looking for these secondhand, Facebook Marketplace (being safe about it, of course) is always full of equipment and dumbbells people are looking to sell.

Prices were confirmed as of August 2026.
